

Anchorage (Elmendorf Air Force Base)

Humidity

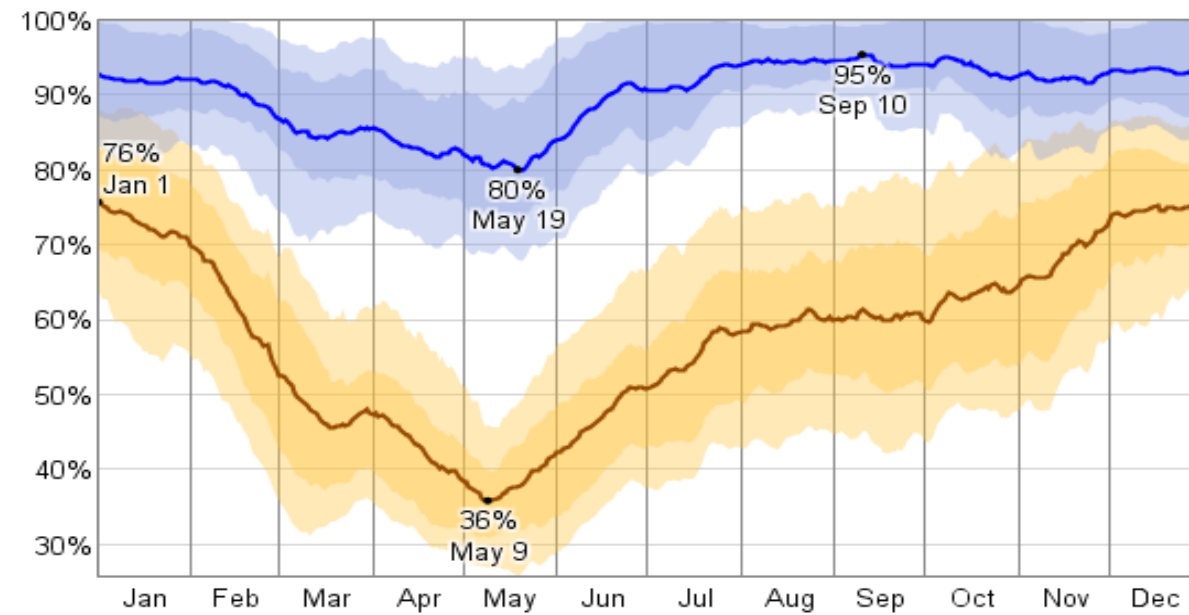

The relative humidity typically ranges from 36% (comfortable) to 95% (very humid) over the course of the year, rarely dropping below 26% (dry) and reaching as high as 100% (very humid).

The air is *driest* around May 9, at which time the relative humidity drops below 40% (comfortable) three days out of four; it is *most humid* around September 10, exceeding 93% (very humid) three days out of four

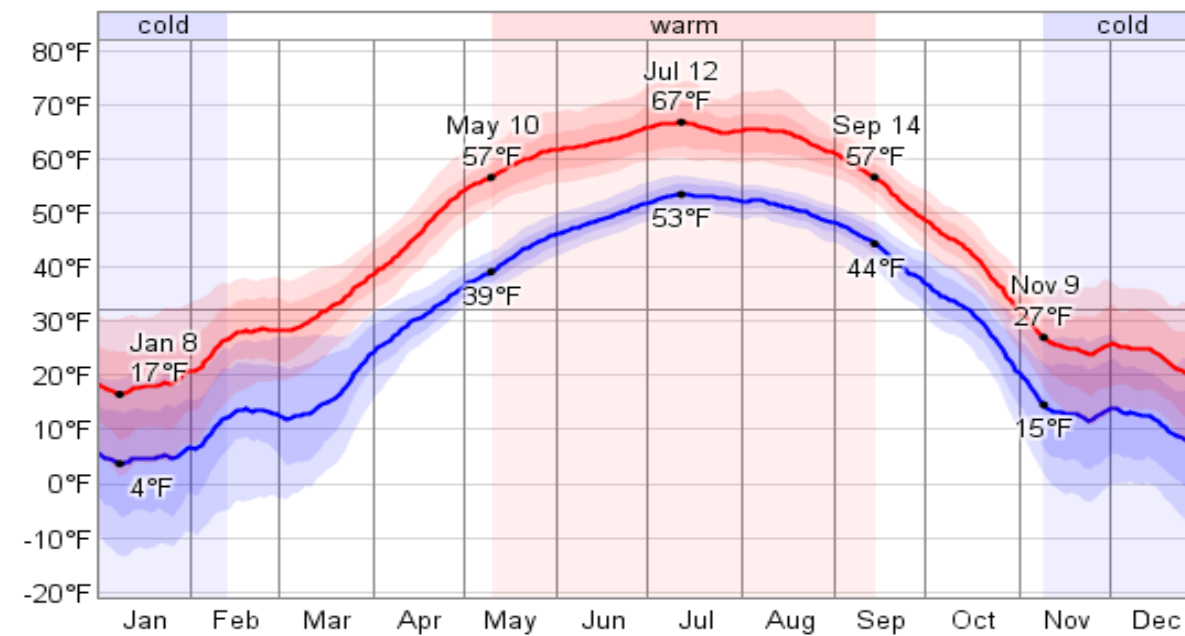

Temperature

Over the course of a year, the temperature typically varies from 4°F to 67°F and is rarely below -13°F or above 74°F

Relative Humidity

Daily High and Low Temperature

Soldotna

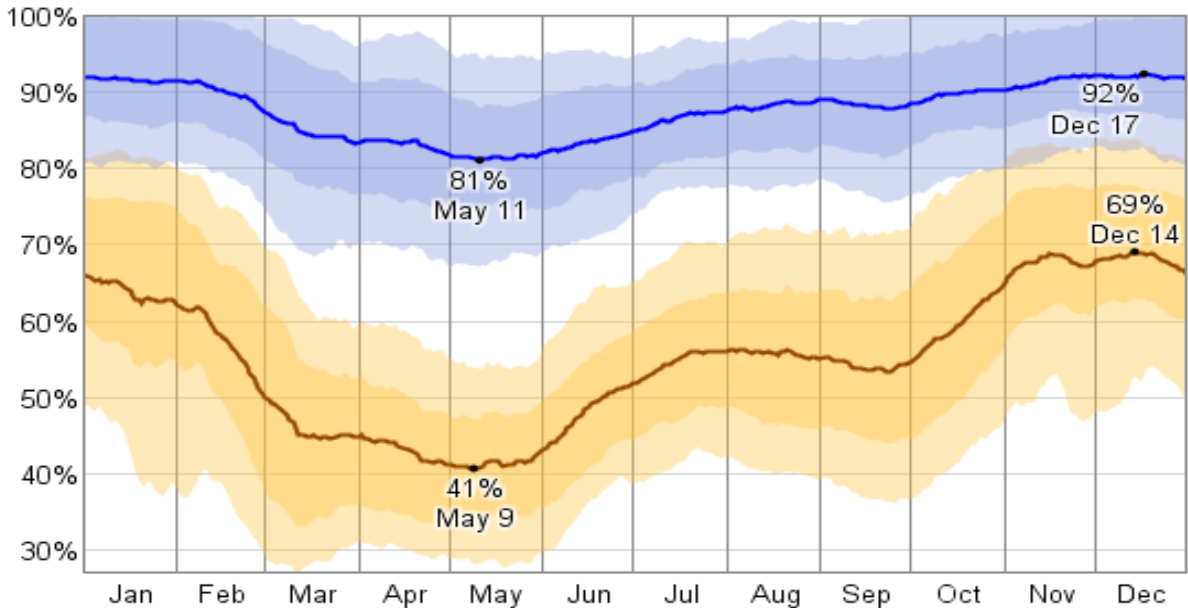

Humidity

The relative humidity typically ranges from 41% (comfortable) to 92% (very humid) over the course of the year, rarely dropping below 27% (dry) and reaching as high as 100% (very humid). The air is *driest* around May 9, at which time the relative humidity drops below 47% (comfortable) three days out of four; it is *most humid* around December 17, exceeding 87% (very humid) three days out of four.

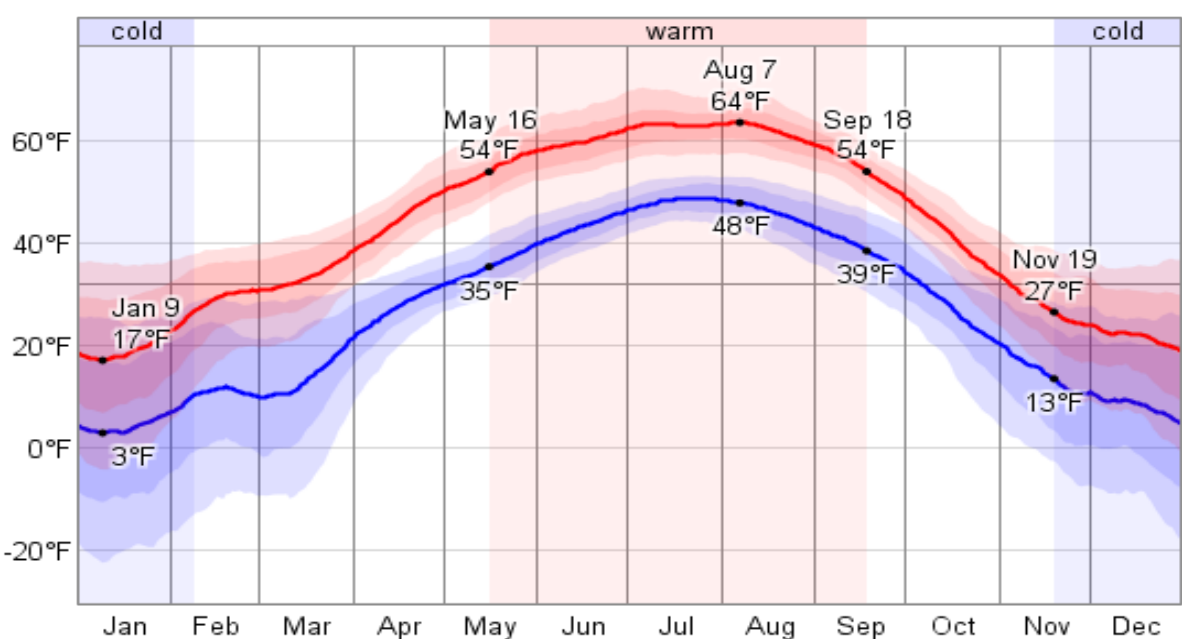

Temperature

Over the course of a year, the temperature typically varies from 3°F to 64°F and is rarely below -23°F or above 71°F.

Relative Humidity

Daily High and Low Temperature

Barrow

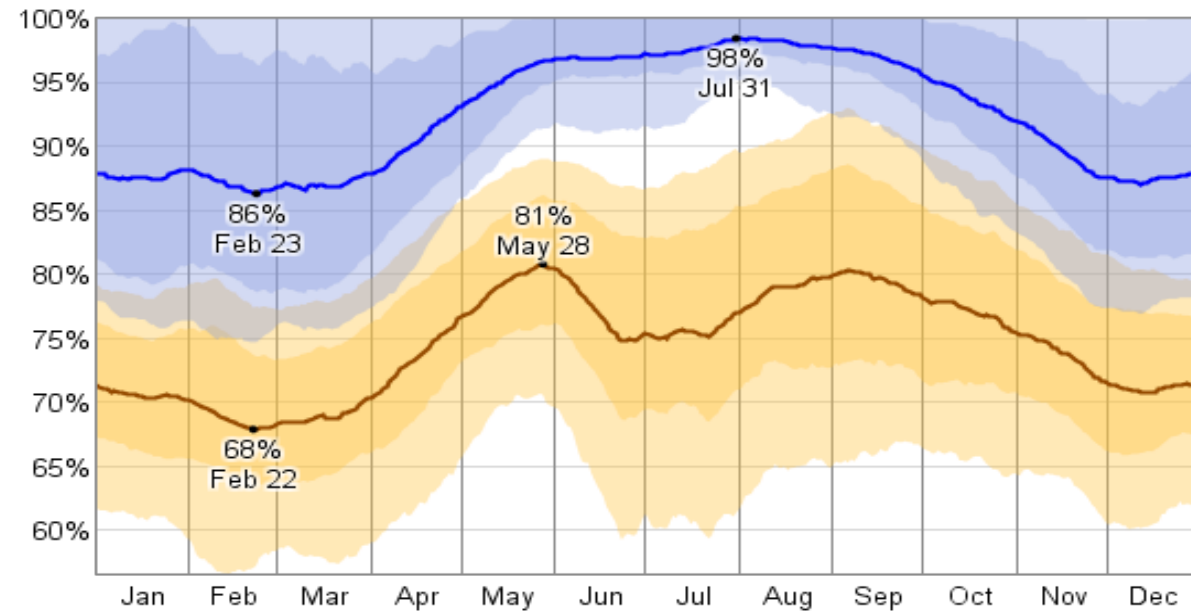

Humidity

The relative humidity typically ranges from 68% (mildly humid) to 98% (very humid) over the course of the year, rarely dropping below 57% (mildly humid) and reaching as high as 100% (very humid). The air is *driest* around February 22, at which time the relative humidity drops below 74% (humid) three days out of four; it is *most humid* around July 31, exceeding 97% (very humid) three days out of four.

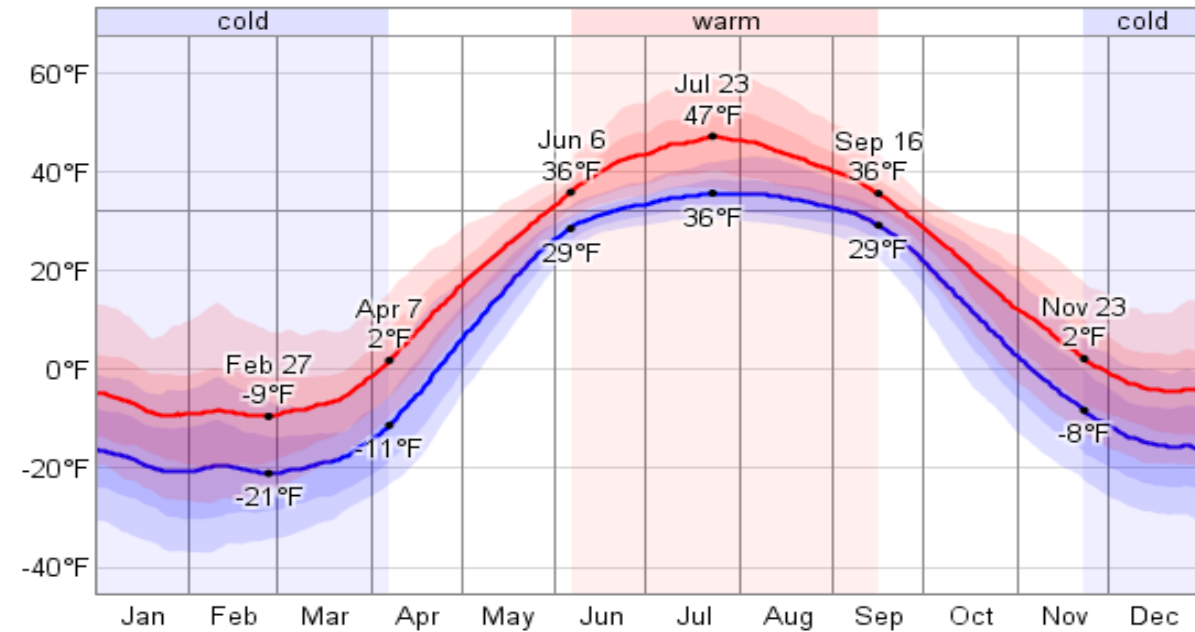

Temperature

Over the course of a year, the temperature typically varies from -21°F to 47°F and is rarely below -37°F or above 59°F.

Relative Humidity

Daily High and Low Temperature

Dillingham

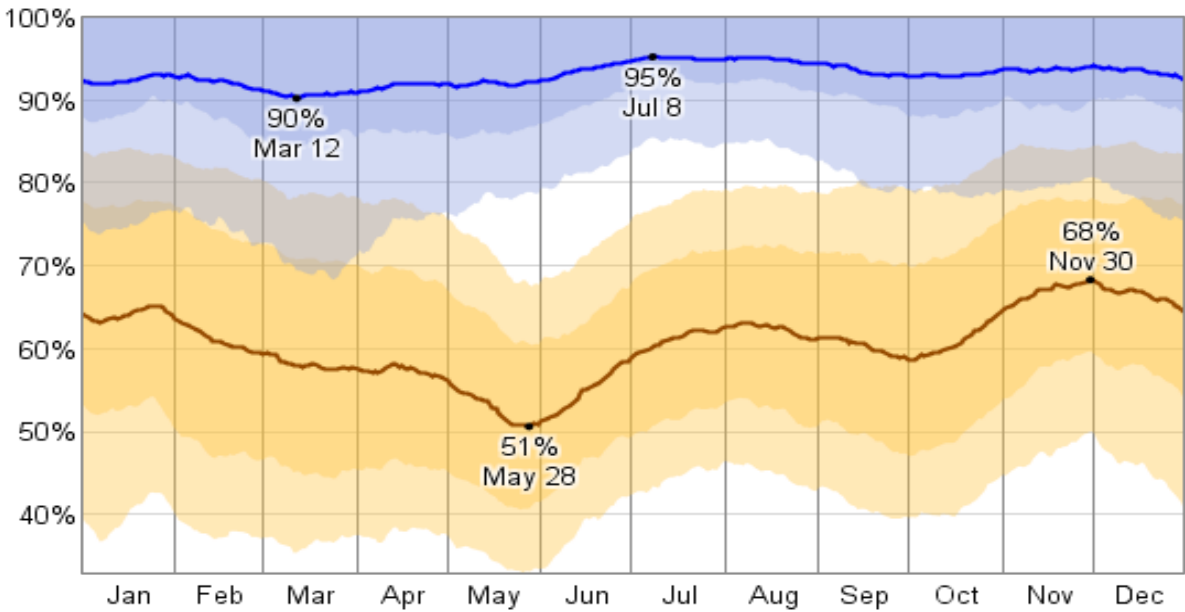

Humidity

The relative humidity typically ranges from 51% (mildly humid) to 95% (very humid) over the course of the year, rarely dropping below 33% (comfortable) and reaching as high as 100% (very humid). The air is *driest* around May 28, at which time the relative humidity drops below 61% (mildly humid) three days out of four; it is *most humid* around July 8, exceeding 93% (very humid) three days out of four.

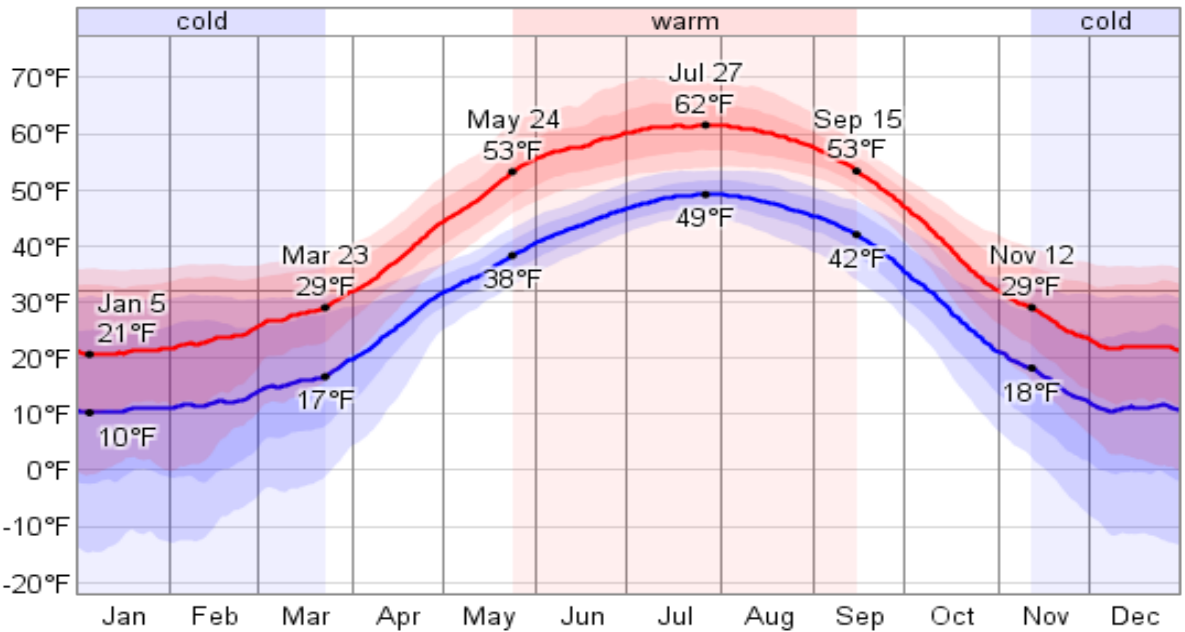

Temperature

Over the course of a year, the temperature typically varies from 10°F to 62°F and is rarely below -15°F or above 70°F.

Relative Humidity

Daily High and Low Temperature

Fairbanks (Eielson Air Force Base)

Humidity

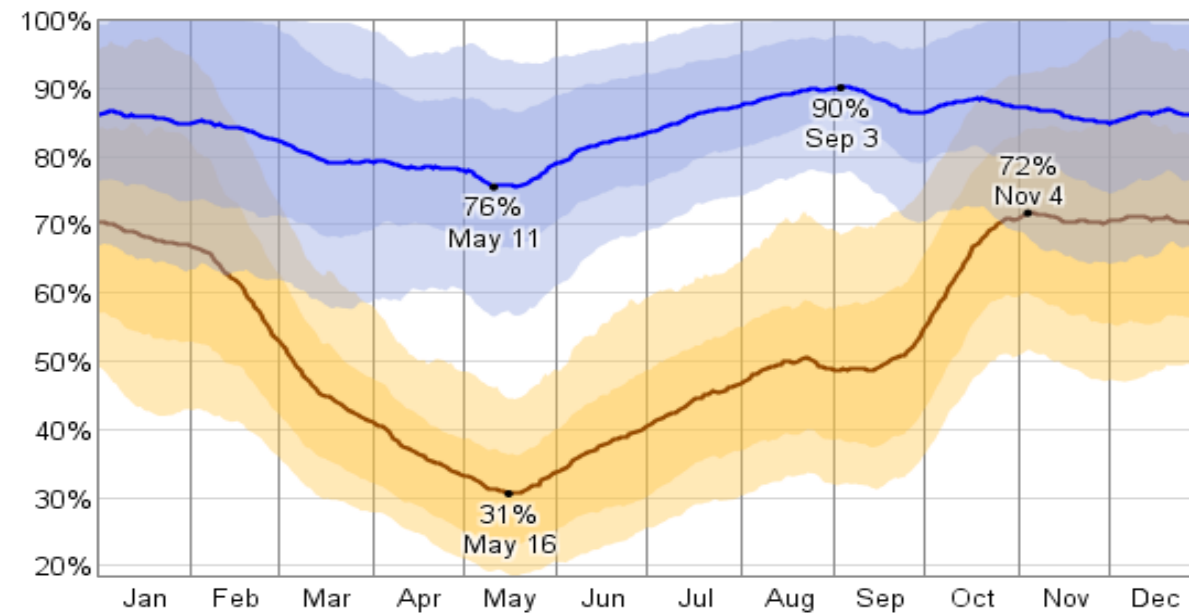

The relative humidity typically ranges from 31% (comfortable) to 90% (very humid) over the course of the year, rarely dropping below 19% (dry) and reaching as high as 100% (very humid).

The air is *driest* around May 16, at which time the relative humidity drops below 36% (comfortable) three days out of four; it is *most humid* around September 3, exceeding 86% (very humid) three days out of four.

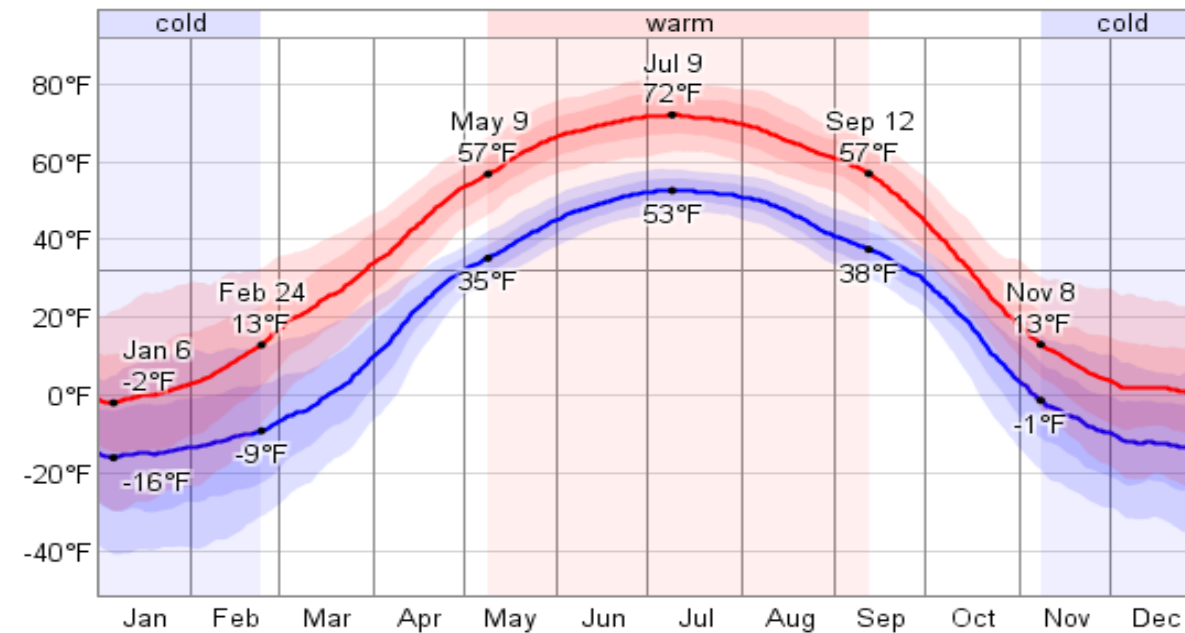

Temperature

Over the course of a year, the temperature typically varies from -16°F to 72°F and is rarely below -41°F or above 81°F.

Relative Humidity

Daily High and Low Temperature

Fort Yukon

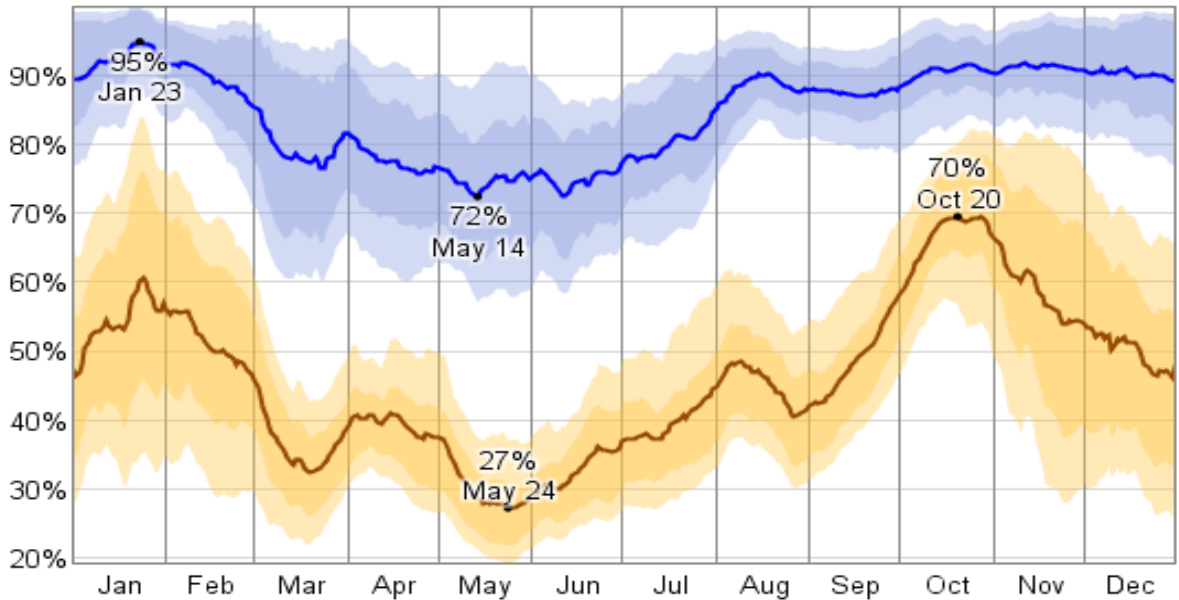

Humidity

The relative humidity typically ranges from 27% (dry) to 95% (very humid) over the course of the year, rarely dropping below 19% (dry) and reaching as high as 100% (very humid). The air is *driest* around May 24, at which time the relative humidity drops below 30% (comfortable) three days out of four; it is *most humid* around January 23, exceeding 93% (very humid) three days out of four.

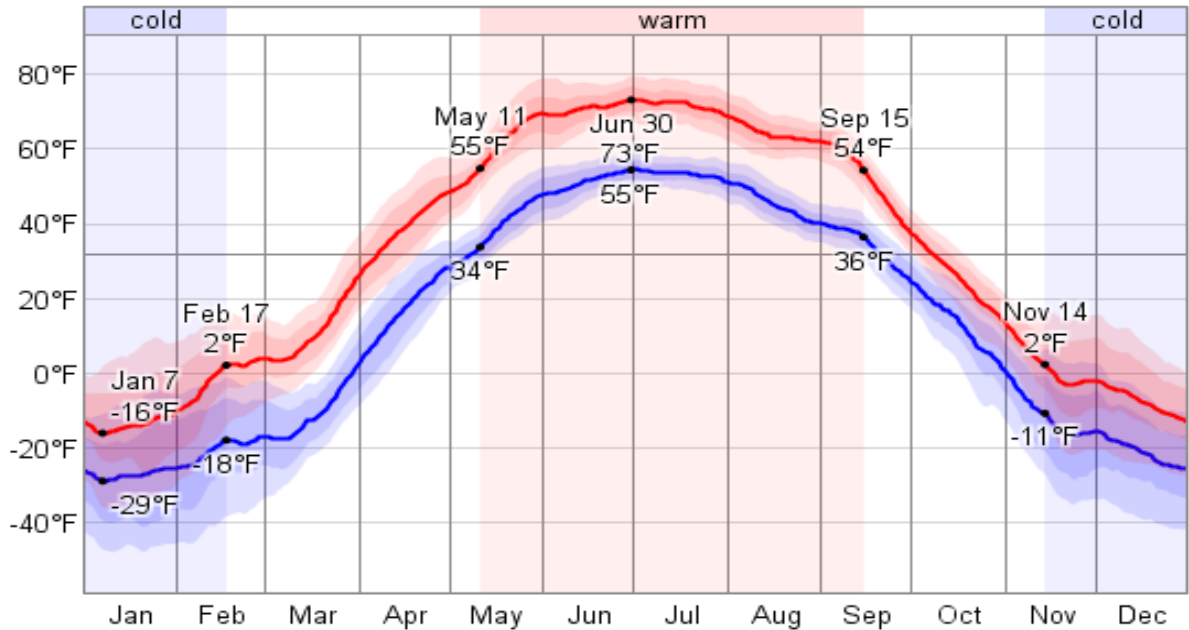

Temperature

Over the course of a year, the temperature typically varies from -29°F to 73°F and is rarely below -48°F or above 80°F.

Relative Humidity

Daily High and Low Temperature

Mountain Village

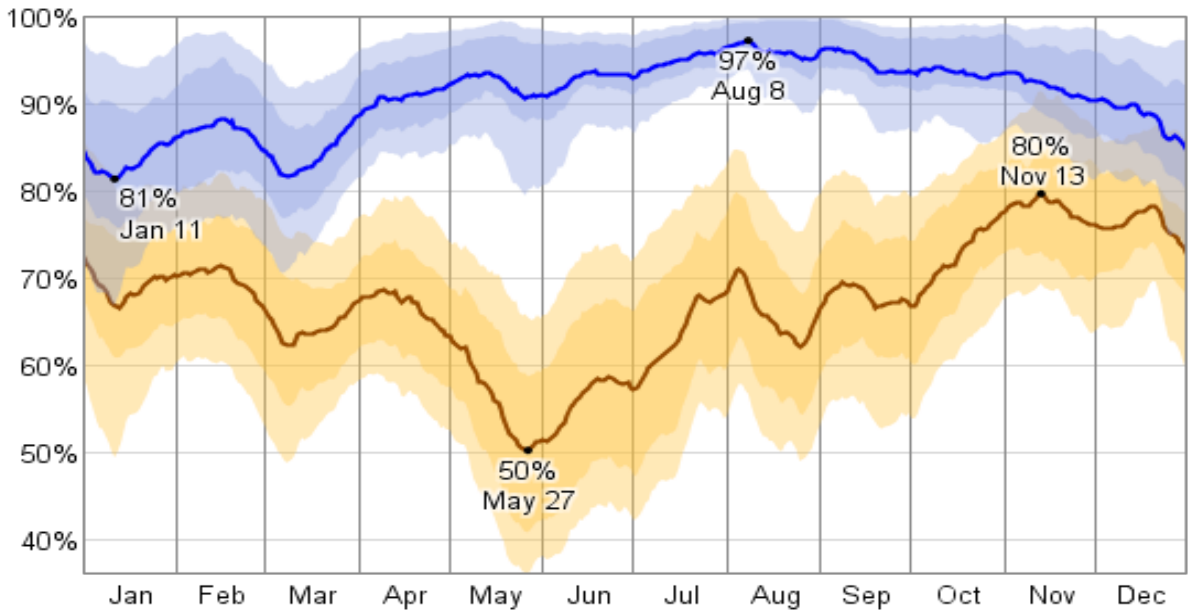

Humidity

The relative humidity typically ranges from 50% (mildly humid) to 97% (very humid) over the course of the year, rarely dropping below 36% (comfortable) and reaching as high as 100% (very humid). The air is *driest* around May 27, at which time the relative humidity drops below 59% (mildly humid) three days out of four; it is *most humid* around August 8, exceeding 96% (very humid) three days out of four.

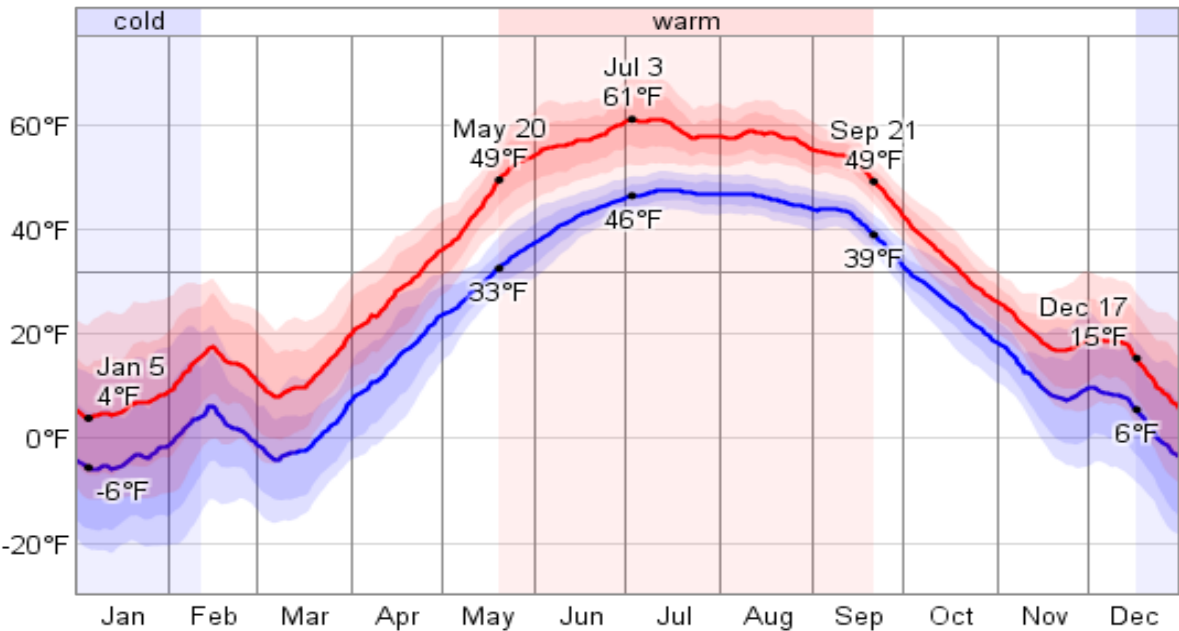

Temperature

Over the course of a year, the temperature typically varies from -6°F to 61°F and is rarely below -22°F or above 69°F.

Relative Humidity

Daily High and Low Temperature

Northway

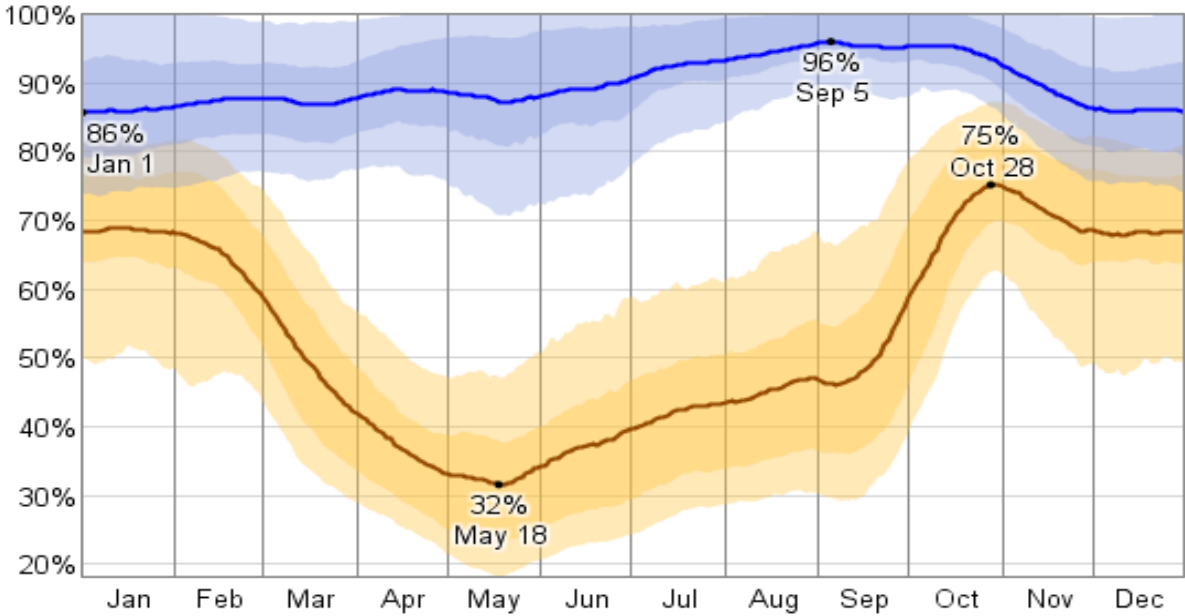

Humidity

The relative humidity typically ranges from 32% (comfortable) to 96% (very humid) over the course of the year, rarely dropping below 18% (dry) and reaching as high as 100% (very humid). The air is *driest* around May 18, at which time the relative humidity drops below 38% (comfortable) three days out of four; it is *most humid* around September 5, exceeding 94% (very humid) three days out of four.

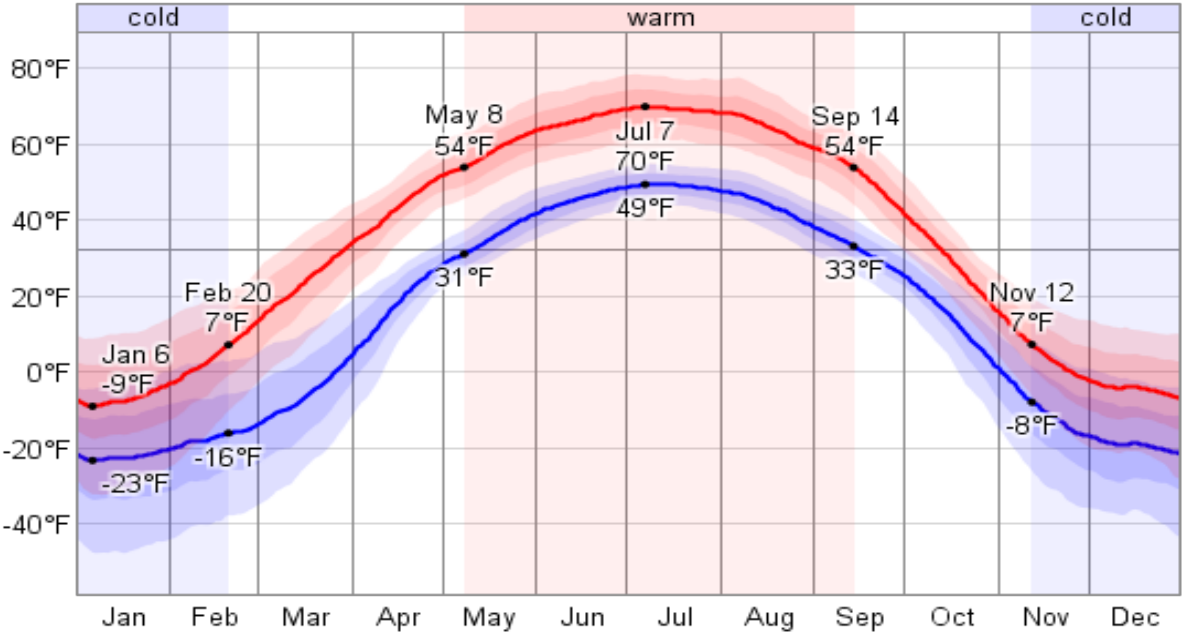

Temperature

Over the course of a year, the temperature typically varies from -23°F to 70°F and is rarely below -48°F or above 78°F.

Relative Humidity

Daily High and Low Temperature

Juneau

Humidity

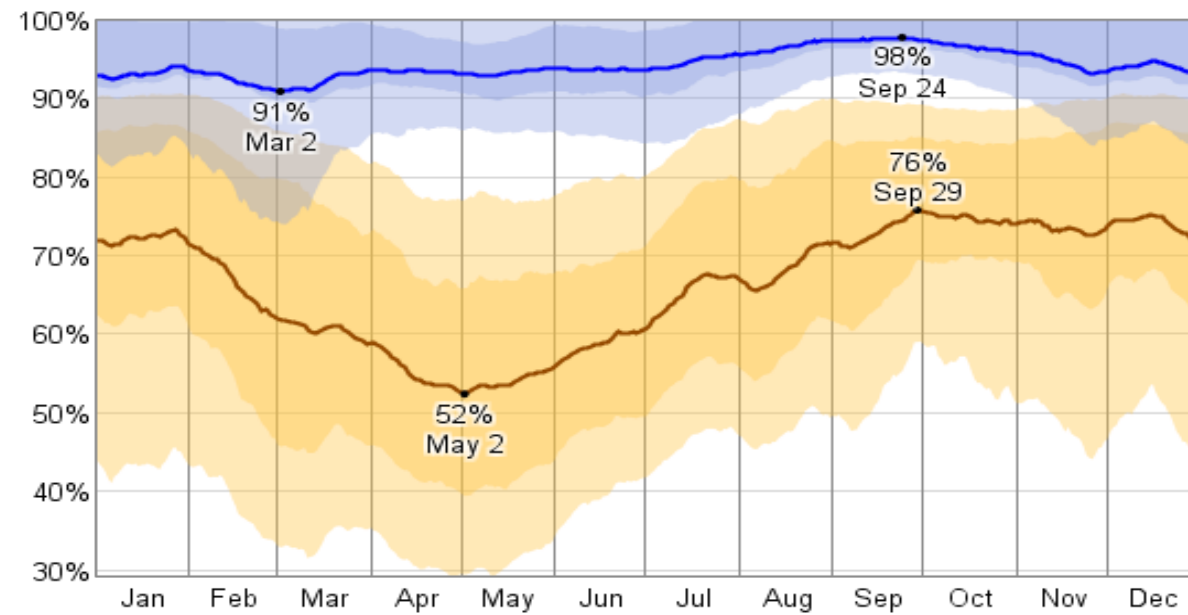

The relative humidity typically ranges from 52% (mildly humid) to 98% (very humid) over the course of the year, rarely dropping below 29% (dry) and reaching as high as 100% (very humid).

The air is *driest* around May 2, at which time the relative humidity drops below 66% (mildly humid) three days out of four; it is *most humid* around September 24, exceeding 97% (very humid) three days out of four.

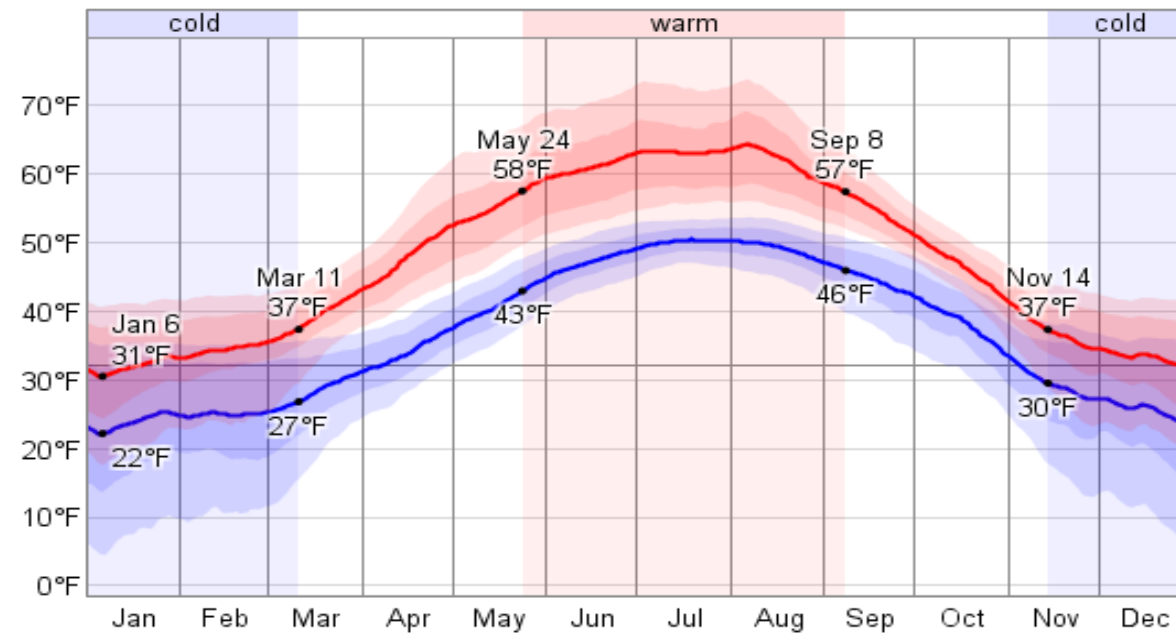

Temperature

Over the course of a year, the temperature typically varies from 22°F to 64°F and is rarely below 5°F or above 74°F.

Relative Humidity

Daily High and Low Temperature

Wasilla

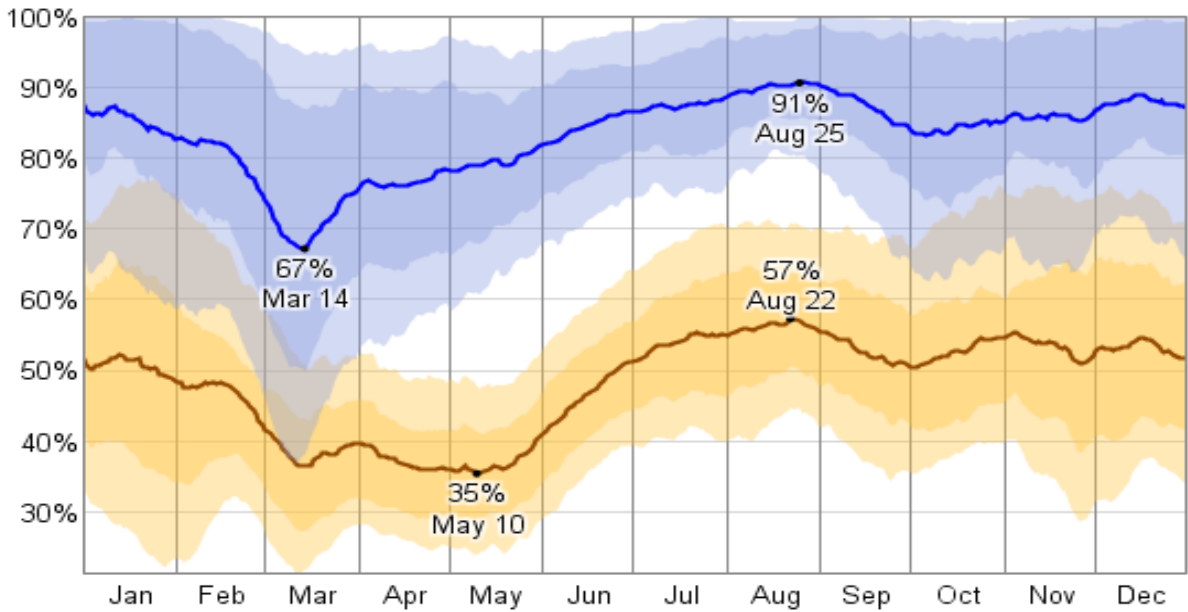

Humidity

The relative humidity typically ranges from 35% (comfortable) to 91% (very humid) over the course of the year, rarely dropping below 21% (dry) and reaching as high as 100% (very humid). The air is *driest* around May 10, at which time the relative humidity drops below 41% (comfortable) three days out of four; it is *most humid* around August 25, exceeding 86% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 8°F to 66°F and is rarely below -13°F or above 74°F.
