Daily High and Low Temperature

Tallahassee

Humidity

The relative humidity typically ranges from 39% (comfortable) to 97% (very humid) over the course of the year, rarely dropping below 20% (dry) and reaching as high as 100% (very humid). The air is *driest* around April 19, at which time the relative humidity drops below 47% (comfortable) three days out of four; it is *most humid* around August 4, exceeding 95% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 39°F to 91°F and is rarely below 25°F or above 96°F.

Relative Humidity

Daily High and Low Temperature

Jacksonville (Jacksonville Naval Air Station)

Humidity

The relative humidity typically ranges from 40% (comfortable) to 92% (very humid) over the course of the year, rarely dropping below 23% (dry) and reaching as high as 100% (very humid). The air is *driest* around April 11, at which time the relative humidity drops below 49% (comfortable) three days out of four; it is *most humid* around August 23, exceeding 88% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 45°F to 92°F and is rarely below 32°F or above 96°F.

Relative Humidity

Daily High and Low Temperature

Gainesville

Humidity

The relative humidity typically ranges from 41% (comfortable) to 98% (very humid) over the course of the year, rarely dropping below 24% (dry) and reaching as high as 100% (very humid). The air is *driest* around April 26, at which time the relative humidity drops below 47% (comfortable) three days out of four; it is *most humid* around August 7, exceeding 97% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 42°F to 91°F and is rarely below 29°F or above 95°F.

Relative Humidity

Daily High and Low Temperature

Ocala

Humidity

The relative humidity typically ranges from 39% (comfortable) to 96% (very humid) over the course of the year, rarely dropping below 23% (dry) and reaching as high as 100% (very humid).

The air is *driest* around April 13, at which time the relative humidity drops below 45% (comfortable) three days out of four; it is *most humid* around August 13, exceeding 94% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 44°F to 90°F and is rarely below 30°F or above 95°F.

Relative Humidity

Daily High and Low Temperature

Daytona Beach

Humidity

The relative humidity typically ranges from 47% (comfortable) to 95% (very humid) over the course of the year, rarely dropping below 29% (dry) and reaching as high as 100% (very humid). The air is *driest* around April 12, at which time the relative humidity drops below 55% (mildly humid) three days out of four; it is *most humid* around July 26, exceeding 93% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 47°F to 90°F and is rarely below 34°F or above 94°F.

Relative Humidity

Daily High and Low Temperature

Orlando

Humidity

The relative humidity typically ranges from 41% (comfortable) to 96% (very humid) over the course of the year, rarely dropping below 26% (dry) and reaching as high as 100% (very humid). The air is *driest* around April 26, at which time the relative humidity drops below 47% (comfortable) three days out of four; it is *most humid* around August 17, exceeding 94% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 49°F to 91°F and is rarely below 37°F or above 94°F.

Relative Humidity

Daily High and Low Temperature

Tampa (MacDill Air Force Base)

Humidity

The relative humidity typically ranges from 46% (comfortable) to 93% (very humid) over the course of the year, rarely dropping below 31% (comfortable) and reaching as high as 100% (very humid). The air is *driest* around April 20, at which time the relative humidity drops below 55% (mildly humid) three days out of four; it is *most humid* around December 19, exceeding 89% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 51°F to 90°F and is rarely below 39°F or above 94°F.

Relative Humidity

Daily High and Low Temperature

Sarasota

Humidity

The relative humidity typically ranges from 50% (mildly humid) to 93% (very humid) over the course of the year, rarely dropping below 32% (comfortable) and reaching as high as 100% (very humid). The air is *driest* around April 20, at which time the relative humidity drops below 59% (mildly humid) three days out of four; it is *most humid* around September 2, exceeding 89% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 51°F to 90°F and is rarely below 38°F or above 93°F.

Relative Humidity

Daily High and Low Temperature

Fort Myers

Humidity

The relative humidity typically ranges from 43% (comfortable) to 96% (very humid) over the course of the year, rarely dropping below 29% (dry) and reaching as high as 100% (very humid). The air is *driest* around April 12, at which time the relative humidity drops below 50% (comfortable) three days out of four; it is *most humid* around July 28, exceeding 93% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 53°F to 91°F and is rarely below 41°F or above 95°F.

Relative Humidity

Daily High and Low Temperature

Fort Lauderdale/Hollywood

Humidity

The relative humidity typically ranges from 52% (mildly humid) to 92% (very humid) over the course of the year, rarely dropping below 35% (comfortable) and reaching as high as 100% (very humid).

The air is *driest* around April 15, at which time the relative humidity drops below 59% (mildly humid) three days out of four; it is *most humid* around August 30, exceeding 87% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 60°F to 90°F and is rarely below 47°F or above 93°F.

Relative Humidity

Daily High and Low Temperature

Miami

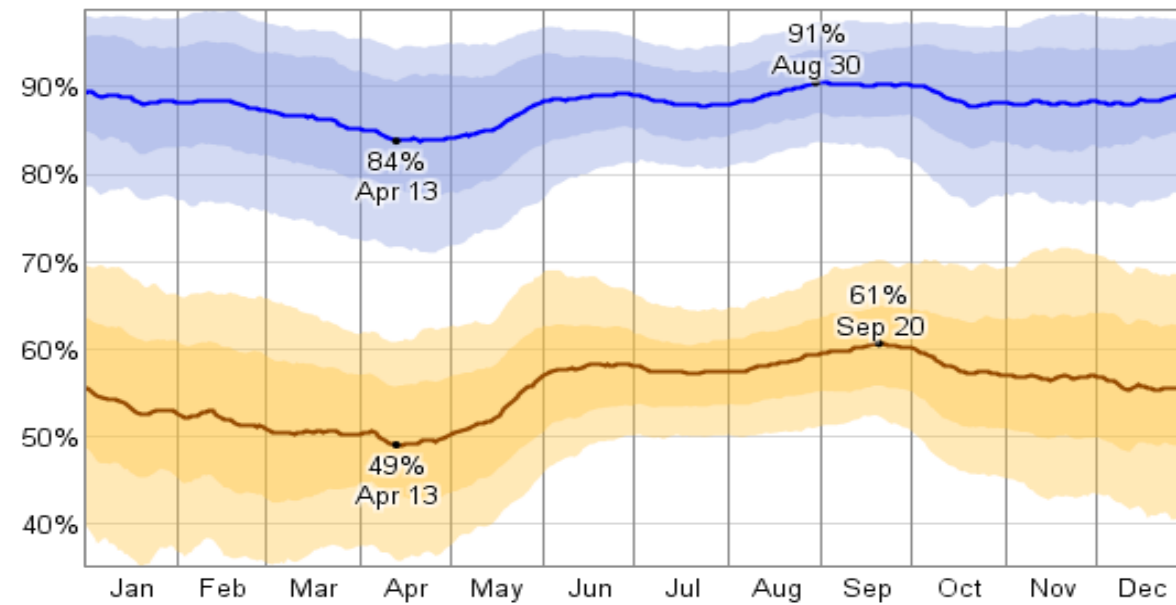

Humidity

The relative humidity typically ranges from 49% (comfortable) to 91% (very humid) over the course of the year, rarely dropping below 35% (comfortable) and reaching as high as 99% (very humid). The air is *driest* around April 13, at which time the relative humidity drops below 56% (mildly humid) three days out of four; it is *most humid* around August 30, exceeding 87% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 60°F to 90°F and is rarely below 47°F or above 92°F.

Relative Humidity

Daily High and Low Temperature

West Palm Beach

Humidity

The relative humidity typically ranges from 50% (mildly humid) to 93% (very humid) over the course of the year, rarely dropping below 35% (comfortable) and reaching as high as 100% (very humid). The air is *driest* around April 12, at which time the relative humidity drops below 58% (mildly humid) three days out of four; it is *most humid* around August 29, exceeding 90% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 57°F to 90°F and is rarely below 44°F or above 92°F.

Relative Humidity

Daily High and Low Temperature

Key West

Humidity

The relative humidity typically ranges from 59% (mildly humid) to 90% (very humid) over the course of the year, rarely dropping below 47% (comfortable) and reaching as high as 100% (very humid). The air is *driest* around April 13, at which time the relative humidity drops below 66% (mildly humid) three days out of four; it is *most humid* around January 2, exceeding 86% (very humid) three days out of four.

Temperature

Over the course of a year, the temperature typically varies from 64°F to 89°F and is rarely below 55°F or above 91°F.
